Inim Electronics

Since 2005, Inim has been producing security and home-automation systems for the protection and comfort of homes and business premises. Certified and reliable devices that combine high technology with ease of installation and use. Designed and manufactured in Italy, these systems are appreciated by homeowners and prestigious structures around the world. Thanks to its network of Authorized Distributors, Inim offers secure purchases and constant customer service.

Inim Cloud

Inim Cloud is the new online service for remote home, office, commercial and institutional structures.
At all times, from all parts of the world, you can manage your security and home-automation system simply from your smartphone.
And share your access to the Cloud with your installer for prompt assistance.
Access the future in **inimcloud.com**

Instant access

Start using the Inim Cloud right away. You can do it easily and in just a few steps. All you need is an Inim system and an Internet connection.

1. Register to **inimcloud.com**
2. You will receive an activation code.
3. Enter the code at your Inim keypad.
4. You can start using Inim Cloud!

Remote control

Out at work or maybe on vacation?
No problem. With Inim's AlienMobile app you can manage your home, office or business premises conveniently from your tablet, smartphone or the web via your PC.
No matter where you are in the world.

Anti-intrusion control

Now you can keep an eye on all areas of your home or business premises that are protected by your intrusion detection system. And verify in real-time whether or not an intrusion has occurred. Giving you more security than ever before.

ALL IN ONE   INIM CLOUD

FOR YOUR
HOME

Home-automation management

Keep check on your premises even from afar. Program, activate or deactivate air-conditioners, lights, garden sprinklers, blinds, gates and more. With Inim Cloud, comfort is automatic.

Notifications via app or email

In the event of an alarm or system fault, receive push notifications via the AlienMobile+ app, or by email in your inbox. All in real-time.

Interface

Simple and intuitive web interface, with complete and instant functions. Security under control and home-automation at your fingertips.
